PROFESSIONAL SUMMARY

Aspiring **AI Engineer**, **Python Developer**, and **Machine Learning Engineer** with a strong foundation in software development and data analytics. Adept at leveraging Python and Machine Learning algorithms to architect predictive AI models. Demonstrated ability to lead technical projects, build robust web platforms, and optimize computer vision systems. Seeking to utilize deep analytical skills and programming expertise to contribute to innovative tech teams.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Web:** HTML, CSS
- **ML:** Machine Learning, Data Analytics
- **Tools:** Git, GitHub, OpenCV

INTERNSHIP EXPERIENCE

Web Developer Intern

2023*Skill Intern / 15-Day Intensive Program**Online*

- Acquired hands-on experience in web development using HTML, CSS, and JavaScript.
- Developed and deployed responsive web interfaces, focusing on user experience and cross-device compatibility.

Python Developer Intern

2022*7-Day Foundational Training**Online*

- Gained practical knowledge in core Python programming, data structures, and fundamental algorithms.
- Participated in daily coding challenges to strengthen logic and complex problem-solving abilities.

PROJECTS

Share Market Prediction Application

Jan 2024 – Present*Python, Machine Learning, HTML, CSS, JavaScript**Academic Project*

- Engineered an AI-powered stock prediction application utilizing Python-based Machine Learning algorithms.
- **Developed stock prediction model with 78% accuracy** by analyzing historical market data trends.
- Integrated interactive web-based data visualization dashboards to assist users in tracking portfolios.

Real-Time Glare Remover System

Aug 2023 – Dec 2023*Python, OpenCV**Academic Project*

- Developed a computer vision system to detect and programmatically reduce light glare in CCTV camera footage.
- **Reduced glare by 40% using OpenCV techniques**, significantly improving image clarity and object recognition accuracy for surveillance monitoring.

E-Commerce Web Platform

Feb 2023 – May 2023*HTML, CSS, JavaScript**Academic Project*

- Built a fully responsive front-end e-commerce platform featuring dynamic product listings and shopping cart architecture.

EDUCATION

Bachelor of Engineering in Computer Science (BE CSE)

Aug 2022 – May 2026*JKK Munirajah College of Technology, Erode, India**CGPA: 7.56/10.0*

Higher Secondary (12th Grade) - State Board
Chandra Higher Secondary School, Sethiyathope

2020 – 2022
Percentage: 61%

WORKSHOPS

- **Data Analytics:** Attended a 2-Day Practical Session focusing on data interpretation and visualization (2023).
